DevX Project Proposal (BruinSpeak)

Idea:

At UCLA, there is often a disconnect between decision-makers, and those who are affected by their decisions. BruinSpeak allows for any student at UCLA to create proposals for changes that they would like to see on campus, as well as to voice their opinions about existing proposals. The desire is for student government organizations UCLA management to use this as a resource to see the changes that students are passionate about.

Tech:

Either Ruby on Rails or Go, along with HTML templating, CSS, and JavaScript

Some features:

- User authentication
- Ability to post proposals
- Ability to interact with proposals
- Filters and sorting
- Polished front-end and back-end
- Anything else that the team would like to implement

Desired Team Composition:

- 1 Project manager (me)
- 2 Back-end developers
- 2 Front-end developers
- 2 Designers
